SUMMARY

Motivated Frontend and MERN Stack Developer with hands-on experience in building responsive and user-friendly web applications using React.js, Next.js, JavaScript, Node.js, Express.js, MongoDB, and Firebase. Skilled in developing modern UI components, integrating REST APIs, implementing authentication systems, and creating scalable web solutions. Passionate about clean design, performance optimization, and continuous learning, with strong problem-solving and teamwork abilities.

EXPERIENCE

React Js developer

total X

January 2026 - Present, Nilambur

- I work as a MERN Stack / Frontend Developer, where I develop responsive and user-friendly web applications using React.js, Next.js, JavaScript, Tailwind CSS, and Firebase.
- I collaborate with team members to build scalable frontend interfaces, integrate REST APIs, and implement authentication and payment systems.
- I also work on improving UI/UX performance, debugging issues, and maintaining clean, reusable code for modern web applications.
- Implemented reusable React form components and validation flows for CRUD screens, reducing duplicate UI code and speeding up feature delivery across internal dashboards.

MERN Stack Developer Intern

Luminar Technolab

Nov 2024 - June 2025, Kochi

- Developed and deployed full-stack web applications using MongoDB, Express.js, React.js, and Node.js (MERN Stack)
- Built responsive and user-friendly frontend interfaces using React.js, Tailwind CSS, Bootstrap, and Axios
- Implemented secure authentication systems using JSON Web Tokens (JWT)
- Developed RESTful APIs and integrated frontend applications with backend services
- Worked on CRUD-based applications including project management and student portal systems
- Collaborated with team members to build scalable and responsive web applications
- Used Git and GitHub for version control and project collaboration

PROJECT

PULSEPLAY-MEDIA APP

luminar technolab

- Developed a media streaming website using React.js with a custom JSON server for backend support.
- Added features CRUD operations and organize videos with drag-and-drop functionality.

RESTAURANT APPLICATION

luminar technolab

- Developed a responsive restaurant listing web application using React.js and Vite
- Implemented client-side routing using React Router for smooth navigation
- Managed application state efficiently using Redux Toolkit
- Integrated REST APIs using Axios for dynamic restaurant data fetching
- Designed responsive and modern UI components using Bootstrap and React Bootstrap
- Improved user experience with fast-loading pages and reusable component architecture

E-KART APPLICATION

luminar technolab

- Developed a responsive e-commerce web application using React.js and Vite
- Implemented product listing, product details, and shopping cart functionalities
- Managed global application state using Redux Toolkit
- Integrated REST APIs using Axios for dynamic product data fetching
- Used React Router for seamless page navigation within the application

STUDENT PROJECT PORTAL

luminar technolab

- Developed a full-stack web app for students to upload, showcase, and manage their academic projects.
- Built the frontend using React, Redux Toolkit, and React Router.
- The backend uses Node.js, Express.js, and MongoDB to store project data.

EDUCATION

Bachelor of Computer Applications

Bangalore North University • Bangalore • 2021-2024

CERTIFICATIONS

MERN Stack Developer Certification

Luminar techno lab • 2025

SKILLS

HTML5, CSS3, JavaScript, React.js, Next js, Vue js ,Bootstrap, Tailwind

Node.js, Express.js, RESTful APIs,firebase

MongoDB, Firebase

Git, GitHub

Visual Studio Code, Netlify, JSON Web Tokens (JWT)
